Established: 1980

With 3 decades of reputable limestone, sand and gravel supply service; the company founders officially consolidated their expertise into Brock Aggregates in 1980. From then on, Brock has grown steadily to serve the growing needs of the construction industry in the GTA (Greater Toronto Area). Brock Aggregates have and continue to be known for their quality and superior customer service.

Today, with 5 gravel pits and 4 conveniently located centrally-dispatched delivery locations, Brock Aggregates continues to serve the industry with the highest quality aggregate available and an unsurpassed level of customer service.

Our supply capabilities include a wide range of aggregate products for many different sectors of the construction industry including road building, foundations, drainage, specialty items and concrete aggregates. Our ability to handle any size project and timeline is unparalleled.
